#### MAXWELL CHAFFETZ

I am the Director of the Federal Bureau of Investigation, United States Department of Justice.

The Federal Bureau of Investigation, United States Department of Justice, has been designated by the Prosident to take charge of investigative work in matters relating to espionage, sabotage and violations of the neutrality regulations. This Bureau is also charged with the duty of investigating other matters bearing upon the maintenance of the internal security of the United States. The duties thus imposed upon this Bureau constitute a vital function in the national defense program of this country. At the present time this Bureau is required by Act of Congress to expand its personnel in order offectively to discharge the important duties devolving upon it.

Hannell Chaffetz is a trained Special Agent and has been continuously omployed by the Federal Bureau of Investigation since February 10, 1930. He has been employed as a Special Agent since February 12, 1934. He cannot be replaced satisfactorily because of the shortage of persons with his qualifications and experience in such activity, and his removal for induction would cause material loss of effectiveness in the conduct of the mational defense work of the Federal Bureau of Investigation. Extreme difficulty is being experienced at present in obtaining a sufficient number of qualified applicants to take care of the increasing expansion of this Bureau and it is impossible to consider a replacement of any individual for this reason. Turnover of personnel is extremely detrimental to efficiency, as trained and experienced members of the staff, such as Haxwell Chaffetz, must form the nucleus of the expanded staff which this Bureau must recruit in order to fulfill its function, and therefore it is suggested that he be given Classification II-8.

SYNOPSIS OF FACTS:

All persons given by applicant as reference report favorably. Others interviewed at applicant's legal residence speak highly of said applicant's character and reputation.

REFERENCE: Bureau letter dated September 20, 1928.

DETAILS: at Gardner, Mass.

Patrick H. Lurray, an attorney, with offices at room 35, 14 lain St., Gardner, Lass. given by the applicant as reference was out of the city and the time of his return was unknown.

Lir. William N. Quade, an attorney, and partner of Lir. Murray, also having offices at room 35, 14 Lain St., Gardner, Lass. was interviewed and stated that he knew the Chaffetz family very well. Lir. Carroll Chaffetz, father of applicant, is considered a very honest and highly respectable man in the community. Lir. Quade said he knew that there were three or four children in the Chaffetz family and that they were highly regarded in the community but that he did not know applicant personally or did he feel qualified to make any statement relative to his ability.

Gardner, Mass., given by applicant as reference, was interviewed, and stated that DETAILS. applicant is his son; that he, the applicant, had finished high school this past Spring; that he had worked while attending school in his, Mr. Chaffetz's, store; that it was his intention and desire to obtain a legal education and that he had gone to Washington in the hope that he might obtain a position which would permit him to study in the evenings. Mr. Chaffetz stated that he had received letters of recommendation from several prominent men in Gardner and that these had been forwarded to his son, the applicant, at Washington. Mr. Chaffetz further stated that applicant has always been an industrious, ambitious, clean living boy and had

never given him any cause for worry or complaint.

Ir. Stanley W. Fenno, principal of the high school at Gardner, Mass., and residing at 128 Woodland Ave., given by the applicant as reference, was interviewed relative to his knowledge of said applicant. Ir. Fenno stated that he has known applicant for four years; that he attended high school under Ir. Fenno's supervision and that he was graduated this past June with an average of 83-77/100% for the four years' course. This average, Ir. Fenno says, is considerably better than that of the average in his school. He further stated that applicant worked all the time that he was attending school and that he had little time for outside activities, despite this fact, however, applicant was elected president of his graduating class and has always appeared to be held in the greatest esteem and confidence by his fellow students. Ir. Fenno considers him absolutely honest, clean moral character and possessed of at least average ability. He believes that the applicant has no bad habits and he recommends him unqualifiedly for the position which he seeks.

W. N. Wright, Cashier, First National Bank, Gardner, Mass. was interviewed and stated that he has known the Chaffetz family for a number of years; that Mr. Chaffetz has done business with his, Mr. Wright's, bank and that he knows him to be an honest and upright man. Mr. Wright further stated that he does not know applicant personally but that he knows his older brother, and that he appears to be a very able chap. He, applicant's brother, is now attending Harvard University Law School. The Chaffetz family, according to Mr. Wright, is having considerable difficulty in a financial way, and are finding it rather hard to keep their business in existence, but it is Mr. Wright's belief that they are absolutely honest and that the applicant, if he is anything like his father, should be well qualified for the position which he seeks.

This agent interviewed George H. Anderson, an officer on the Gardner, Mass. police force, with residence at 250 Pine Street. Fr. Anderson stated that he knows applicant and his older brother and that neither has ever given his department the least bit of trouble; both boys are well behaved, perfectly honest and have no bad habits.

Mr. B. W. Streeter, Asst. Postmaster, Gardner, Mass., with residence at 145 Green Street, was interviewed and stated that he knows Carroll Chaffetz, applicant's father, and that he considers him one of the finest Jewish men he has ever known. Mr. Streeter does not know applicant personally, but he stated that with the early training and environment which his father has been able to give him he should be well qualified.

Theodore Cory, with residence on Smith Road, Gardner, Lass. was interviewed by this agent and stated that he attended school with applicant for three years and that he knew him very well during this time. Mr. Cory stated that applicant was always very serious minded, ambitious and a hard worker. He was always popular with his fellow students, so much so in fact that he was elected president of his graduating class.

Mrs. Cafritz further advised that applicant is not well known in Washington, he having lived here only about six weeks.

Mr. H. G. Sutton, Registrar at George Washington University, advised Agent that applicant has been attending that university since September 22nd of this year; that he is a part time student and is pursuing courses in English, Political Science and German. Mr. Sutton also advised that it would be impossible for any of applicant's teachers to have formed an estimate of him in this brief period particularly because applicant is enrolled in very large classes comprising from 50 to 350 students. For this reason applicant's teachers were not interviewed.

Dear Sir:

This is in response to your letter dated March 2 calling for suggestions regarding the work in the Pureau.

So far as the work in the technical division is concerned since I entered the division a year ago, methods and our course of procedure have developed until I feel sure that we are arriving at a point at least approaching maximum efficiency. It seems to me, however, that our service could further be improved if we made some effort to encourage more careful work on the part of our contributors.

Large contributors should themselves appreciate the extent of our collection of points and the necessity on that account of submitting consistently points that are complete and thorough. "e should only have to call the matter to their attention.

More difficulty might be encountered with the smaller contributors who perhaps do not relize the size of our files. Fuch could be accomplished, I think, if they were acquainted with the fact that our division has so rapidly increased that our service to them would reach its most efficient point only when they on their part submit paints that could be classified correctly by us. With this help on their part, I am sure our service would be greatly improved.

Very truly yours,

Maxwell Chaffe

Inspector H. H. Clegg reports that applicant presents a good personal appearance and approach; has ordinary features; has a good personality; well-poised; average in speech; self-confident; tactful; answers general questions definitely; has not studied Federal Procedure; has had investigative experience only as a fingerprint classifier; appears to be resourceful but not to have executive ability; however he is likely to develop. Applicant was good in the dictation test. He can use a typewriter.

Applicant has had experience as a lecturer on a sight-seeing bus in Washington, as clerk, and as a fingerprint classifier in the Identification Unit of this Division since February 1930. Applicant is endorsed by former Senator F. H. Gillett.

Applicant was afforded the special interview test interviewing Special Agent Helliher who reported that applicant was good as to personality, appearance, poise and tact, and the thoroughness of his report; however he was not particularly thorough in his investigation and failed to follow through when leads were offered. Agent Kelliher believes applicant would develop into an agent of about average ability.

Mr. Clegg states that he found that applicant has given study to the single fingerprint system, is now being used on miscellaneous special work in the Identification Unit; that he seems to be well versed in technical matters, affecting his duties, and he appears to be a clean-cut, ambitious, intelligent young man of satisfactory personal qualifications and with satisfactory interest; and he believes that he would develop into an agent of above average ability and recorrends favorable consideration.

Director,
Division of Investigation,
U.S. Department of Justice,
Penn. Ave at 9th St. N.W.
Washington, D. C.

Dear Sir:

I am submitting the following suggestions in response to your letter of December 7, 1934.

(1.) I am in receipt of your letter of December 21, 1934, outlining a plan for the creation of a fund for the benefit of the families of agents who may lose their lives in the performance of official duty. I am in accord with the phan outlined, although it is my belief that further steps be taken. The following outlines breifly a plan that has occurred to me, which would in effect amount to an insurance policy but would do away with high premiums and any question of payment because of the nature of our duties.

Under this plan each agent would be required to pay into a fund a sum which would create an amount large enough to pay to the wife or any other beneficiary thesum of \$10,000 (ten thousand dollars) regardless of whether that agent may be killed by violence or die a natural death. This fund could be so administered that the expense of maintaining it would be very negligible and also in such a manner that the amount to be paid by each agent would be very small compared to existing insurance rates. It can readily be seen that creation of such a fund would relieve the individual agent of the burden he now carries in trying to maintain an insurance policy which is necessarily large, because it is hisdesire on account of the nature of his duties, to take better care of his survivors.

It is possible that under this plan the fund will become in time, large enough so that no further payments into it will be required, thus resulting in a greater benefit to the agent whose salary does not permit him to maintain any other insurance in addition to that given him by the above plan.

I do not believe that any plan the fund which only protects an

11/35

agent killed by violence is sufficient. Ido believe, however, that any plan created should give as much consideration to the agent who dies a natural death after giving his time and health to his work as to the man killed in line of duty.

(2). An equitable plan should be evolved for the benefit of agents on special assignment who are required to spend 24 hours a day away from home and yet within their headquarters city so that these agents would receive some remuneration for the expense incurred by them in obtaining meals away from home.

It has been my experience wherein the maintenance of 24 hour plants has resulted in additional expense of some thirty to forty dollars a month to me for the purchase of meals that under ordinary circumstances. I would have had at home. It is my belief therefore that an egent on special assignment under the above circumstances should be allowed some compensation for this expenditure.

(5). A plan should be evolved by which agents especially those on special assignment would receive more intensive instruction on the use of firearms; some such plan as is now in vogue in the training classes whereby agents spend aperiod of a few days at an Army post would prove very beneficial to agents who have not had such training.

In discussing this matter with other agents I have fould that many of the men, even those who have been in the service for a number of years, are not as familiar as they should be with the proper uses of firearms under all emergency conditions.

Intestinal fortitude is a necessary factor in the work which we are called upon to do, however, proper conduct under fire is an essential and I believe that every agent should be given one week at some Army camp for a very intensive training under expert supervision in the proper handling of all types of firearms. Such a period of training could also consist of practice raids in which the proper use of tear gas would be demonstrated.

The above suggestions are respectfully submitted for your consideration.

Very truly yours,

Morrell Chaffetz, Special Agent

Mr. Maxwell Chaffets. Division of Investigation. U. S. Department of Justice. Post Office Box 812. Chicago, Illinois.

Dear Mr. Chaffets:

I desire to refer further to your letter deted January 2, 1935 in which you submitted a number of suggestions for imprevement in the Division's operation.

With respect to your first suggestion to the effect that the proposed plan for raising a sum of money to be made available for the widow or designated beneficiary in the event of death by violence of a Special Agent of this Division be extended to an insurance policy eliminating high premiums for the benefit of Special Agents and that the amount of \$10,000 be made payable, regardless of whether the agent involved meets his death by violence or dies a natural death, The question of according protection to Special agents of this Division, as well as to dependents, has given me no little concern and you will probably recall that some months ago an effort was made to have all agents in the service adopt a group insurance plan. The insurance company in that case tendered certain concessions which could only be received if the majority of agents voted for its adoption. It was my hope at the time that the plan would be adopted. However, a sufficient number of agents did not accept the offer, which precluded placing this plan into operation. The plan recently initiated by the Division and mentioned above is purely temporary, in view of the fact that legislation is now being sponsored which will provide a sump sum payment for the widow or designated beneficiary of an employee killed in the line of duty in the amount of \$12,000. I do not believe it would be possible for the Division to inaugurate a plan such as the one you suggest.

RECORDED

Farso i

With regard to your second suggestion relative to the reimbursement of agents for expenditures made at their headquarters city while on special assignment, you are advised that this is a matter over which the Division has no jurisdiction and it must be guided entirely by the opinions rendered by the General accounting Office on the subject. Their opinions have been consistent to the effect that all expenditures made in the headquarters city such as enumerated in your suggestion can not be covered in the regular expense account.

Four third suggestion with regard to according special agents extensive instruction in the use of firearms meets with my hearty approval. I have always insisted that all agents receive monthly training, believing that this training is absolutely necessary in view of the nature of the work which the Division is now called upon to perform. I know you will be interested to know that a school was started here at the Seat of Government to retrain all old agents in the service. A part of the curriculum of this course requires them to spend a number of days at the Army base at Quantico, Virginia, where they are placed under experts in the use of firearms and given extensive training in the use of the various types of arms now being utilized in this service.

I desire to express to you again my appreciation of your courtesy in forwarding these suggestions to me.

Sincerely yours,

Director, Federal Bureau of Investigation, Washington, D.C.

Dear Sir:

I desire to make the following suggestion in connection with the fund maintained by voluntary contributions in the amount of \$10.00 from each Special Agent.

It is respectfully suggested that each Special Agent desiring to do so be required, as of a given date, to pledge himself to contribute the \$10.00 to this fund when it is expended under the existing regulations. This pledge would automatically make it incumbent upon each Agent to contribute his \$10.00 on each occasion as it becomes necessary and guarantee a said sum to be paid to the designated survivor although a portion of the fund would not be collected until subsequent to the death of a Special Agent. However, I believe that once a Special Agent has made this pledge no difficulty would be encountered in securing from each Agent his \$10.00 contribution.

I believe that if this procedure was followed the occasion would not exist whereby a survivor would be paid only a negligible amount of money due to the fact that some Agents have been negligent in forwarding their contribution to the Bureau.

Very truly yours,

MAXWELL CHAFFETZ, Special Agent. 138

August 4, 1937.

Mr. Maxwell Chaffetz, Federal Bureau of Investigation, U. S. Department of Justice, Washington, D. C.

Dear Mr. Chaffetz:

I have your letter of July 14, 1937 wherein you make the suggestion that the Bureau have the agents pledge a contribution of ten dollars to be expended under existing regulations in connection with the fund maintained for the dependents of agents killed in the line of duty.

The Bureau believes that the present procedure of voluntary contributions should be continued and does not feel that a pledge system should be necessary. However, your interest in making this suggestion is indeed appreciated.

Sincerely yours,

John Edgar Hoover, Director.

June 16, 1938.

Director, Federal Bureau of Investigation, Washington, D.C.

Dear Sir:

Reference is made to Bureau letter dated June 1, 1938 requesting the individual employees of the Bureau to submit any suggestions which they may have which might lead to improvement in the operation of the Eureau's activities.

In this connection I desire to submit the following suggestion:

It has occurred to me from time to time that problems arise in the individual field offices, which may be new in their nature as far as the personnel of certain offices are concerned, yet the same problems which raise a question in those particular offices may have been successfully handled in some other field offices. I have in mind the comparatively recent situation which always occurred when the field offices were required to conduct certain circularizations. In speaking to agents of various offices throughout the country it was determined that the individual offices all had the same problem and that it had been met in various ways, finally culminating in the Eureau requesting the individual field offices to secure bids from mailing houses to handle these circularizations.

My thought in the matter was that the Bureau could require that once a month or at some set time Special Agents in Charge to submit these problems to the Bureau, stating at the time how they handled the matters. Although the matters may have been handled satisfactorily the problems may have been treated differently by the various Special Agents in Charge and possibly may have been handled in a better fashion. The Bureau could devise some means whereby these problems that are raised could be brought to the attention of all the offices in order to secure individual view points and information as to how the problems had been handled in other parts of the country, and this information would certainly be invaluable to other Special Agents in Charge if the same problems or similar ones might arise in the future.

72

J.

It is also believed that all of these problems and methods of handling them could be maintained as a matter of record in the Pureau and at the time a Opecial Agents in Charge Conference is held they could be discussed in a group, at which time it is believed that some very helpful suggestions could be obtained as to handling such problems in the future.

Very truly yours,

Special Agent.

Further reference is rade to your communication of June 16, 1935, therein you suggest that the Bureau might consider having Special Agents in Charge sub-it problems to the Dursen at stated intervals, devising has these problems were hundled in such of the field offices and the information thereby secured be further discominated to the field offices.

The bureau is of the opinion after a study of your suggestion that such procedure would not be particularly beneficial. Problems arising in the various field offices can be appropriately handled if the Special Agent in Charge Then in coubt will communicate with the Eureau concerning his problem. The Bureau 'esires to paint out that Special Agents in Charge Conferences which are held at stated intervals are held for the purpose of the interchinge of ideas such as those you have in mind. It is believed that such benefit is derived from a personal interchange of ideas by Special agents in Charge during attendance at these conferences.

Federal Bureau of Investigation
U. S. Department of Justice
1300 Liberty Trust Building

Dear Mr. Chaffetas

The Bureau has given consideration to the suggestion made by you while attending a session of the retraining school relative to placing in the investigative report form a notation as to the office of presecution.

Your suggestion has been disapproved in view of the fact that in a vast majority of cases the office of origin and office of prosecution are identical. In other cases you will observe that the copy indicated for a United States Attorney will usually reflect the office of prosecution, and the office of origin in supervising the case is charged with the duty of making certain that the office of prosecution does receive copies of all investigative reports.

I do desire, however, to express to you my appreciation for your suggestion and for your thought-fulness in submitting it.

December 27, 1938.

Director, Federal Bureau of Investigation, Mashington, D.G.

Dear Sir:

At a recent quarterly conference held at this office, pecial Agent LAX. CHAFFATZ raised the question as to whether any difficulty had ever been incurred by various Eureau agents in driving Eureau cars in forgy weather.

Agent CHAFFLTZ has suggested that the Eureau might possibly desire to consider the purchase of fog lights to be attached to one or two of the Bureau cars assigned to each Field Office to be used in those instances where inclement weather due to fog made driving at night during some emergency very difficult.

Agent CHAFFLTZ further informs me that he recently witnessed the demonstration of the Trippe fog lights and he was very favorably impressed with their ability to penetrate the fog.

The above suggestion is being submitted to the Bureau for any further consideration it hight desire to give it.

Very truly yours,

A.B. LACKIE, Special Agent in Charge.

ANNUAL EFFICIENCY REPORT

MAYTELL CHAFFETZ

MARCH 31, 1946

SPECIAL AGENT

Ir. CHAFFITZ presents an excellent appearance, is well groomed, poised, intelligent, and experienced. He is mature, versatile, and well qualified to carry out in an efficient manner any type of investigation which he might receive. His physical condition has improved, and I believe him presently able to function satisfactorily on arduous assignments.

He is an excellent dictator and an experienced automobile driver. He types at an average rate of speed, but does not use the touch system. He has no shorthand ability.

This employee is fully qualified in the Bureau policies, procedures, and investigative techniques. He has handled all types of investigation, both of a routine and complicated nature. He has functioned in an administrative and supervisory capacity in the past, and is both an excellent investigator and administrator. Assignments can be made to him with the knowledge that the work will require a minimum of supervision and that such assignments will be carried through to a logical conclusion in an efficient, thorough and capable manner.

Fr. CHAFFETZ has testified on numerous occasions during his Bureau tenure, and is well experienced in this role.

He is rated excellent in the use of all Bureau firearms, being particularly adept with the revolver. He is well qualified to operate on dangerous assignments, and is capable of supervising others in the conduct of raids and dangerous assignments.

The investigative reports submitted by Mr. CHAFFETZ require a minimum of supervision both as to form and substance, and his work at all times is indicative of an excellent ability to carry out such assignments as are made to him.

During the period for this report Mr. CHAFFETZ was engaged in the early part in investigations under the Foreign Travel Control program, and investigations of an Espionage nature. Since September 1, 1945 he has been assigned to the general criminal squad in this Office, and for three months

during that latter period was engaged in the conduct of antitrust investigation. Subsequent to the completion of the latter assignment, I received a letter from the Executive Vice-President of the CROWN CAN COMPANY, one of the larger industries in Philadelphia, in which letter the writer expressed appreciation for the courteous and commendable manner in which the employees of this Office conducted themselves during the course of this investigation.

Although Mr. CHAFFETZ is not at the present time assigned to a technical surveillance, he has operated on such a surveillance in the past, and has likewise operated on physical surveillances. He is well experienced in these roles.

This employee is entitled to a rating of Excellent in his present grade.

PERSONAL AND CENTIDEMTIAL

April 11,

Dear Er. Hoover:

I desire to submit my resignation effective, if possible, on April 19, 1946. I realize that this is rather short notice but the group with which I am affiliating desire that I be available to them at that time.

After sixteen years of devoted service to you and the Bureau it becomes most difficult to take this step. In fact I would never consider leaving the Bureau just to take another position. I have, however, been presented with an opportunity to enter an enterprise in which I will have an interest. You may be assured that this decision was reached only after careful deliberation and after considering my obligation primarily to my family I realize that I could not let this opportunity pass.

these years is one that I shall always treasure. Despite my departure I would like to feel that you will call upon me whenever I may be of assistance. You may be assured that I will continue to be a loyal supporter of the Bureau and the ideals that APR have setoup for it.

Please accept my best wishes for your continuedgood health and success.
